

Creating a Winning Work Breakdown Structure

Course Description

This accelerated learning course is designed to prepare you to create a Work Breakdown Structure (WBS) on your own, real world projects. Expanding upon the WBS section of our popular Project Management Tricks of the Trade class, you will learn the benefits of the WBS in project management, and practice creating several work breakdown structures with the help of the instructor and your classmates. You will be given a unique opportunity to begin creating your WBS for your current real world project.

Course Objectives

At the completion of this course, students will be able to:

- Master the basic WBS concepts
- Articulate the benefits of a WBS
- Understand what is and is not included in a WBS and its dictionary
- Employ different WBS formats, tools, and best practices
- Create a WBS and a WBS Dictionary
- Utilize a WBS to justify resources, manage many aspects of the project, and help team members understand their roles and deliverables aid in achieving project goals.
